At the meeting on Saturday night of the Amerioan Party, Isase Paul, Esq., was called to the chair and H. Carroll appointed Secretary.

After consultation, Messrs. W. W. Parks and Paul from the 7th and Dr. A. A. Hatcher and Hugh Carroll, of the 8th wards, were appointed delegates to the county Convention the 4th of May next, and adjourned to meet Thursday night at 8 o'clock, at Hall's store, when it is hoped the party will turn out in their strength.

We omitted, inadvertently yesterday, to notice the appointment of our friend Anson Nelson, Esq., by the Board of M yor and Aldermen, as the proxy of this corporation to attend the meeting of the Winchester and Alabama Railroad on the 7th of May. The selection could not have been bet-

MEMPHIS JUBILEE .- We are requested by the Superintendent of the Nushville & Chattanooga Railroad, to state that persons desiring to attend the great Railroad jubilec, at Memphis, can be ticketed there for \$12 and receive a return ticket without additional charge. Tickets are good from the Gas Fixtures present time until the 6th of May next.

ENTERTAINMENT AT HARMONIA BALL .- Let it not be lorgotten that the Harmonia Dramatic Club gives an entertainment to-night at Harmonia Hall, on Lower Market street, for the benefit of the new Hook and Ludder Company. Thus far the efforts of those identified with the project to add this important arm to the Fre Department of the city, have been marked with flattering success. A conthe necessary apparatus and render the company an esp cial eye to attractiveness for this occasion. The Hall will doubtless be crammed full.

FIRE IN MONTGOMERY .- An extra from the office of the Montgomery (Ala.) Mail, contains the particulars of a very disastrous confligration which occurred in that city on the night of the 25th inst. The Eclipse Livery Stable was burnt, together with some 20 or 30 horses-several of them very valuable-together with other contents. The business house of Bulger & Brown was also consumed, and a private residence adjoining. A gentleman met with a severe accident during the fire by falling into the well on the statile lot, breaking both of his legs below the knees, involving the joint and fracturing the thigh bone. He will probably recover.

For the Patriot. Baving heard that a number of "funt young men" have it in contemplation to go angling some, I have thought proper to deutoate to them the fullowing lines:

Bolton Mountains. Y sterday afternoon, Messrs. Fitch, Cook & Co., left off the beaviest tlast at Quarrysville, so said, that was ever let off on the Bolton Mountains. In this case 1500 pounds of powder were let off. The mass of rock upheaved was 25 feet in depth, and rock wasremoved, 1000 tons being thrown from 15 James P. Hambleton, Physician, to 100 rods distant.

One solid mass of rock, weighing at least 15 tons, was thrown a distance of 30 rods; fences in the vicivity were completely destreyed, and the tops of trees taken off as clean as if done by the axe. The tops of apple trees in an orchard near by were taken completely off, presenting a desolate appearance. The public road which rups at the foot of the hill was completely filled; many of the larger rocks requiring to be bl ated before they can be removed. One mass which lay in the road, after being divided into four parts, could with difficulty be removed by a six ox team.

It generally requires, in opening a new quarry, an outlay of some \$4 000 to remove the waste rock which lies over and above the paving stones.

Age and Debility.

As old age comes creeping on, it brings with it many attendant infirmities. Loss of appetite and weakness im pair the health, and want of activity makes the mind discontented and unla ppy. In cases where old age addsets is fluence, it is almost impossible to add vigor and health, and although many remedies have been tried, all have failed, until EGRHAVE'S HOLLAND BITTERS were known and used. In every case where they have been empl-yed, they have invariably given strength and rectored the appetite. They have become a great agent for this alone, and are used b) many people who are suffering from loss of appetite and general debility. In cases of long standing chronic diseases, they act as a charm, invigorating the system, thus giving nature another opportunity to repair physical injuries. PATENT **ELASTIC FIRE & WATER-PROOF** CEMENT ROOFING.

THE undersigned are prepared to introduce into use in Tennessee W. E. CHILDS & CO.'S PATENT ELASTIC FIRE AND WATER-PROOF CEMENT ROOFING, and ask the attention of Architects, Builders, Railroad Companies, and the public to examine its superiority over other ARCHITECTS AND BUILDERS should not fail to samine this Rooting, as it is better and cheuper than any hing in use. The material forms a hard and smooth surface that will resist the action of the atmosphere in every phere, and will neither , vaporate, crack nor rot; and, as to its curability, there is no question.

It is practically imperishable, and will perfectfully resist any ordinary external exposure to fire, as is shandantly proved, and we will warrant it water-proof. We will engage to put our Roofing on over ordinary good heathing, old shingles, far and gravel, tin, side, copper, or from toofs—it making no difference how sheep or list they may befor seven diffur per one hundred square feet; it being far chesper than any Roof of the old style, and we are sure it

vill give better satisfaction.

It will also be found to be the best tring ever invente i to cover or mend old leaky tin, tar and gravel roofs, or around chimneys, scuttles, dormar windows, and gutters, where the tin is rusted through. This Cement can be put on to last as long as stone, and form a perfect ad e.o. to any ob-ject to which it is applied. Tin Roofs can be pa nied over (and warranted not to leak) at two d llars and fifty cents per handred square feet, which is cheaper and much bet-This Roofing will be found to be the best thing for covering large Roofs where they are exposed to such as Steam Mills, Saw Mi Is, Factories, Railroad Cars, Bridges, Depts, Station Houses, Steambout Decks, and, in fact, every kind of Roof where there is an externa posure from fire. As the Roof is perfect, without a joint in it, it presents no chance for fire to communicate, and any ght substance will burn out without igniting.

Insurance Offices at Cincinnati, and other places where Childs & Co.'s Cement has been used, jusure puld ings with Roofs covered sith this Cement, at the same rates as for those covered with Iron, Copper or Tin.

The Cement will be furnished to those at a distance i'h directions for using.
